LOCAL MATTERS.

Kee Koo Tea only at Vankirk Bros.

Complete—Our dress goods stock.

J. M. BOSTWICK & SONS.

To Rent—A good house on Cornelia street. Apply to J. B. Elble.

What about those jackets—Yes, we have a full line and you make a mistake if you purchase without first enquiring our price.

BORT, BAILEY & CO.

Stoves Stoves.

Munger & Coburn, 13 Main street, are prepared to store 300 stoves.

We have a new roof, and store stoves up stairs, (not in a shed or barn to rust.) All stoves handled with care, blackened and set up properly.

A Bargain—our \$1.10 black jerseys.

J. M. BOSTWICK & SONS.

To Rent—A residence on South Main street. Apply to P. F. Pearson's drug shop.

Kee Koo Tea only at Vankirk Bros.

An entire new line of fencing.

BORT, BAILEY & CO.

WANTED—A good girl for general housework in a small family. Enquire of J. L. Spillman, 68 Milwaukee avenue.

Look at This!

Farms, residences, hotels, stores, stocks of goods, mills, and all kinds of real estate and business property constantly on hand for sale at bed-rock prices by the real estate firm of Wheeler & Stevens. Office in Pampus block, Janesville Wis.

25 dozen fancy stashed back 4 button kid gloves in all the best shades at \$1, would be cheap at \$1.50. No such goods can be found elsewhere.

BORT, BAILEY & CO.

We never before have shown so many choice things in dress goods. It will pay you to visit this department.

BORT, BAILEY & CO.

WANTED—AN HONEST YOUNG MAN FOR a permanent position, with all educational and business references. References enclosed. Address: J. M. BOSTWICK & SONS, 12 Barclay St. N. Y.

For Sale—The stock and fixtures of the Williams' saloon on North Main street. Apply to Wheeler & Stevens.

A full line of passementerie trimmings—several choice patterns at popular prices.

BORT, BAILEY & CO.

Kee Koo Tea only at Vankirk Bros.

Shurtlett's batteries at the Star.

Pineapples, strawberries, pine tomatoes, radishes, onions, etc., at Denniston's.

Two pieces of beautiful effects in fancy velvets, just opened.

J. M. BOSTWICK & SONS.

GASOLINE STOVES—If you have any idea of buying a gasoline stove, call and see the Detroit Store Works' store, at Munger & Coburn's, sole agents at Janesville. Over forty in use at Janesville, and not one ever returned.

Largest stock of kid gloves in the city. All styles, at J. M. Bostwick & Son's.

Dairy cheese, Neufchâtel cheese at Denniston's.

Orders for Shurtlett's cream can be left at Golling's.

Call on us for carpets. Our line will please you—never larger.

J. M. BOSTWICK & SONS.

Gentlemen can have their spring overcoats and suits renovated, dyed or repaired in a thorough manner. Work warranted in every particular.

Trous. ADP.

17 Franklin St. Janesville.

Yale creams—25 cents—at the Star.

California honey at Denniston's.

Call and examine our large line of spring goods—new patterns in all departments.

Republican County Convention.

A Republican county convention will be held at the court house in the city of Janesville, on Friday, March 25th, 1897, at 2 p. m. to nominate a candidate for municipal judge for Rock county. The several towns and wards will be entitled to delegates as follows: Beloit, Bradford, the fifth ward of the city of Janesville, two each; Avon, Harison, Janesville, Johnson, Le Centre, Magnolia, Rock, first ward of Beloit three each; Centre, Fulton, Union, Newark, Plymouth, Porter, Tullie, city of Edgerton second and fourth wards; city of Beloit, third ward, city of Janesville, four each; Spring Valley, third ward, city of Beloit, and second ward, city of Janesville, six each; fourth ward, city of Janesville, six; Clinton, third ward, city of Janesville, seven each; Milton, eight; Union, nine.

W. T. VANKIRK, Sec. J. M. BOSTWICK, M. V. FRATT, R. C. CAMP, S. L. WARD, Rock County Republican Committee.

SPECIALS.

—The weather clerk's promise, today is, "Clear with stationary temperature."

—Gospel temperance meeting at the Wayside Inn this evening. Everybody invited.

—The funeral of John Himes will be held to-morrow afternoon at two o'clock from St. Patrick's church.

—The Old Fellows and their families will assemble at Old Fellows' hall this evening in social reunion.

—Either Janesville harbors some terrible villains or the stories told by one or two opposing candidates are not true.

—The paint shop of the La Delle wagon works at Fond du Lac, was damaged to the extent of \$7,000 by fire last night.

—Dr. Judd is making extensive improvements on his pleasant second ward home. The entire upper story is being remodeled and enlarged.

—T. O. Sherman, of this city has just closed a contract whereby he is to represent the Chicago wholesale coffee and spice house of P. J. Towle & Co.

—The gospel temperance meeting at the Wayside Inn at three o'clock to-morrow afternoon, will be conducted by Rev. T. DeWitt Peake of Court street church.

—One third ward youngster is preparing for Easter already. His mother found him, this morning, trying to feed a tabernacle of blinding to a motherly old hen.

—One of Janesville's firms, Mills Bros. the plumbers, are likely to receive the contract for three thousand dollars' worth of plumbing and gas fitting in a Moore hotel.

—In the state assembly yesterday, a bill was passed "To amend chapter 171, laws of 1895, entitled, an act to incorporate the Janesville Manufacturing & Hydraulic company."

—Mrs. Wm. Sililo desires to tender her heartfelt thanks to the kind neighbors and friends for assistance and favors rendered during the recent sickness, death and burial of her husband.

—Mr. William Patnam, residing on Milton avenue, town of Harmony, died yesterday morning, of consumption, aged 24 years. The funeral will be held at the house to-morrow, at one o'clock in the afternoon.

—Last night M. S. Fritchard was installed into the office of Grand Patriarch of Rock River Encampment No. 3, I. O. O. F. He succeeded N. C. Baker, who resigned because of his intention to remove from the city.

—On the 20th at 10 p. m. the sun crosses the line, and the astronomical spring commences. We call the great time mark the vernal equinox, for, as the words signify, day and night are equal and spring has come.

—Miss Sue Harlow has returned from Chicago, and will reopen the kindergarten school at her home corner Washington and Irvine street Monday, April 4. Parents desiring to patronize the kindergarten will do well to communicate at an early date.

—After hearing the report of their organ committee the ladies of the Congregational church have decided to choose a House organ. This is the same make of instrument as those at the two Episcopal churches and is highly recommended.

—One of the handsomest windows in town is that of Fook & Wilcox. When it was fitted up there was plenty of fine material to make a fine showing with, and the result would make a young man begin to yearn for a spring suit if any thing on earth would.

—Stockholders in the Building and Loan Association that neglect to pay their second installment by next Monday are liable to a fine. Secretary Burnham is quite anxious that there shall be no arrears and wishes all stock holders to visit him on Monday with a supply of checks.

—Eugene Crandall, of the third ward is not responsible for anything said or done by him now-a-days. A smile of contempt plays upon his many countenance, and he doesn't seem to care whether the water works plant be a success or not. Anything and everything is all right to his notion, and all because it's a baby girl—a soprano. "Gene is well."

—Before the streets are numbered for postal delivery there will be two or three changes made in the names of streets.

—One proposition is that Ann street in the second ward, be known as a part of North Fourth street and named accordingly. This would make North Fourth street extend from the river to Milton avenue.

—Steam heating apparatus is soon to be put into the home of W. B. Ashcraft, of the third ward, Mills Bros. having received the contract. The same firm is also fitting up T. F. McKee's new residence on South First street with steam fixtures and with a system of water pipes that can be easily attached to the public service should there be such a thing.

—While he was talking about the losters on street corners, the other day, Officer Smith whispered into the ear of a reporter these words: "If we begin a war on them we strike snags the first thing. Every night some of our most prominent citizens stand around in front of the stores. Their example is followed by boys and young men. Some of those that kick hardest against the obstruction are responsible for considerable of it themselves."

—A parlor full of ladies and gentlemen enjoyed a lecture on "Christian Science" from Mr. Sawyer, of Milwaukee, last evening.

The company was assembled at the home of Mr. and Mrs. E. G. Field, in the first ward. Mr. Sawyer spoke of the cures made by the science, and said that after a few years more broken bones could be cured in the same way, explaining, at the same time, the philosophy upon which the treatment was based.

—Carpenters are "getting out" lumber for Clarence W. Jackson's house in the third ward. The plans are all drawn and the structure, which is to be built in the style known as Modern Gothic, will be a very handsome one. It will cost something over seven thousand dollars. Just as soon as warm weather has come to stay, ground will be broken and building commenced. Mr. Jackson's lot is in the same block as the residence of the late M. C. Smith and is diagonally opposite that of Richard Valentine.

—The board of managers of the Woman's exchange, consisting of all active members of the Y. W. C. T. U., will meet Tuesday afternoon at three o'clock at the Wayside Inn, at which time the names of those desiring to become depositors will be enrolled and articles presented for sale will be received. The exchange will not be responsible for goods lost, reasonable care having been taken of the same. Wax and feather flowers, hair and leather work, spatter and splinter work and card boxes are too permissible to be accepted. It is expected that each depositor will donate one article for the benefit of the exchange.

—Anglo-American Club men are waiting anxiously to see what will be done with the proposed game law. One of the provisions of this law is that no shooting or decoys is admissible. A Janesville sportsman said this morning, "Unless they strike that out we may just as well throw our guns in the river. Those Horner fellows that want it left in, are shooting in a marsh where they couldn't use a decoy if they wanted to. They can wade around and kill ducks without any trouble, but hunting on the lake is different. Up at Koshkonong, without decoys, we couldn't get three shots a week."

PERSONAL.

—Mayor Lagart, of Rockford, was in the city today.

—Miss Franc Holloway has gone to Broadhead for a few days' visit.

—Mr. Charles Kerr, of the Fort Howard Review, was in the city today.

—Ex Sheriff Hawthorn returned last night from Philadelphia after a three weeks' visit.

—Mr. A. H. Sheldon, of the hardware firm of Hanchett & Sheldon, went to Ashland today.

—Manager Quinn's place in the telephone exchange has been taken by L. D. Richardson, of Sparta.

—J. H. Lindstrom, town clerk of Union, was looking over the records in the county clerk's office today.

—Mr. Charles Sililo, superintendent of the St. Louis, Mo., gas works, who was called here a week ago on account of the fatal illness of his brother, Mr. Wm. Sililo, returned home this morning.

—The Rev. S. P. Wilder, of North Brookfield, Mass., arrived in the city this forenoon, and is a guest at the home of Mr. J. A. Cunningham, first ward. Mr. Wilder will occupy the Congregational pulpit to-morrow morning and evening.

—Fenner Kimball, William Gardiner and E. G. Field have returned from Monroe where they went as a committee to appraise land wanted by the Illinois Central road. They report that the committee would be waived but it was found that one of the parties objected, so another meeting must be held Friday. The land involved consists of three lots within the city limits.

THE WEATHER.

At seven o'clock this morning the thermometer indicated 21 degrees above zero. Clear with northwest wind. At 10 o'clock p. m., the register was 40 degrees above zero. Clear with northwest wind. For corresponding hours one year ago the register was 37 and 69 degrees above zero.

We have heard many of our old friends say that Salvation Oil cured them of rheumatism. Those who have not tried it should do so. Our druggists sell it for 25c a bottle all the time.

CAN ANYBODY TELL?

When the first cures of the season will strike town.

Who is it that invades so many of those campaign lines.

Which fund the council would pass Milwaukee street from.

If the picture in front of Vankirk Bros. store was painted from life.

Whether Ed. Smith's idea on the lost question isn't a pretty sound one.

Why only one hotel in town complies with the law's requirements on fire escapes.

How many weddings are to take place within a short time after the close of Lent.

Whether horse raising isn't getting to be even more of a business for Rock county than tobacco.

Whether Justice Wickham will run a Turkish bath room in his court if the river gets high enough.

How many Janesville young men are waiting for their spring suits until the Louisiana lottery drawing takes place.

Why those fellows who think a paper should publish everything that comes along, no matter who it hits, always squeals the loudest when they themselves happen to be poked up.

AN OLD TIME TABLE.

Mr. R. E. Pattison, of the town of Rock, for many years the passenger agent of the old Chicago, St. Paul & Fond du Lac railroad (now the Northwestern) in this city, sends us an old time table, of that road, which went into force on March 19th, 1887, just thirty years ago today. The table is well preserved, and is undoubtedly the only one of that series now in existence. At that time S. F. Johnson was general superintendent, and G. L. Dunlap, assistant superintendent. There were seventeen stations between this city and Chicago, being Junction, Plank Road, Canfield, Desplaine, Dunbar, Palatine, Barrington, Carey, Crystal Lake, Ridgefield, Woodstock, Harvard, Lawrence, Sharon, Clinton, Shopley, Janesville. With the time card is also published instructions for the movement of trains, there being only six, four passengers and two freight. The document is valued by Mr. Pattison as a souvenir of times gone by.

THE WATERWORKS.

The Plans and Specifications for the Plant—The Well Completed.

An adjourned meeting of the water commissioners was held last evening, all the commissioners being present except Commissioner Dennison.

During the informal conversation just before calling to order, Secretary Phelps informed those present that a gentleman representing a Detroit (Mich.) construction company had been in the city looking over the plans and specifications, and expressed his willingness to sign a contract for constructing the entire plant for \$125,000.

Engineer Rager recommended that the weight of pipe per lineal foot be used in the construction of works be as follows: 16 inch pipe 134 pounds; 12 inch pipe 86 pounds; 10 inch pipe 66 pounds; 8 inch pipe 48 pounds; 6 inch pipe 33 pounds and 4 inch pipe 20 pounds.

On motion of Com. Eldridge the recommendations were adopted.

In answering the inquiry of Secretary Phelps regarding the artesian well, Engineer Rager stated that he had carefully measured the well, and found it to be 1,057.63 feet deep; the diameter was 7 1/2 inches, possibly 8 inches, the casing, calling for a 7 1/2 inch bore. A good connection has been made with the pipe and rock, and that the piping was as good if not better than called for in the contract. He stated that the contractor would cap the well and guarantee all the work. Engineer Rager placed a steam gauge on the well, and found 12 pounds pressure; the flow was 31 feet above the ground and about 41 feet above the river. The report seemed to satisfy the board that the work had been well done.

The specifications were taken up, and after some informal discussion regarding the letting of contracts, Engineer Rager stated that he would endeavor to prepare general specifications upon which the board might advertise for bids by Monday night, so that if the present bill be passed the legislature shall not pass, then the board will be ready to proceed with the work.

HE SAYS "YES"—OVER THE LIPS.

To the Editor.

Fire Chief Spencer's answer to the question about fire curries remedies us of the grocer's answer to the inquiry of the customer, "Is that good cheese?"

"Oh, yes, it's excellent cheese—of the kind." (He knew "was made of skim milk and was full of skippers.")

The chief desires to know what I will build such on an elevation 150 feet high, for, and feed the 25 horses required to elevate the water. You may say to him that I will build such a structure complete with galvanized plate iron tank roofed, for two cents for each gallon and engine that it shall remain intact for twenty years. That I will feed, groom and take good care of the horses for 20 cents each horse for each 24 hours for the continued time of 20 years. And engage that they shall be ready for duty when called upon. I will further engage there shall be room in the structure, good, well lighted and airy, sufficient to furnish all that C. M. Henderson & Co. will require for their brood and "foal plant. And will further engage that the 25 horses shall be able to elevate all the water needed and also furnish all the power that C. M. Henderson & Co. will require for the operation of their work. Should Richardson & Marzoff or any other company want some room and power, or more water was required, an indefinite number of horses could be added without any cost for grooming or attendance.

R. J. RICHARDSON.

CHOICE NEW MUSIC.

Among the new musical publications of the month we notice the following instrumental and vocal pieces: "Snowflakes," a pretty song by L. Marshall, 35 cents; five easy piano pieces by Mack—just the thing for little people—"Thought of Home Waltz," "Lisp Waltz," "After Dark Galop," "Our Next Mazurka," and "Down the Lane Redowa,"—each 25 cts. And for good piano players there is a beautiful piece by Keynald, entitled, "From Heart's Core," 25 cts. An easy little piano piece by Behr is "Pearls of Dew," 25 cts; and there are two splendid new pieces for the piano organ, with pedal part, viz: a "Cazou" by Cutler, 35 cts; and "Pastorale, Op. 55," by Merckel, 50 cts. Any of the above pieces sent by mail to your address, by the old and well known house of Oliver Ditson & Co., Boston, Mass.

CONGESTION OF THE KIDNEYS.

S. J. Thompson, of No. 478 Swan Street, Buffalo, New York, writes of his remarkable cure of congestion of the kidneys:

"Three years ago I was attacked with congestion of the kidneys. My physician besides administering internal remedies, had applied on my back over the affected region, two Alcock's Porous Plasters. I recovered in the course of about two weeks, and was again brought on by a similar attack, but it seemed as if the congestion was more severe. Certainly, I had more pain and difficulty in passing water. Instead of calling a doctor this time, I concluded to try Alcock's Porous Plasters, and applied two fresh ones every day. The pain quickly lessened, the water flowed more freely after the first application, and in just six days I was completely restored and able to resume my occupation."

RETROACTION.

J. Charles Triffin, of Janesville, do hereby retract and take back all statements made by me against the character and reputation of Herman Mullenschaeder.

In presence of ADAM BENKIN, MAX FRENCH.

Disorders which affect the kidneys are among the most formidable known. Diabetes, Bright's disease, gravel, and other complaints of the urinary organs, are not ordinarily cured in severe cases, but they may be cured by timely application of the most efficient remedy. Alcock's Porous Plasters, and applied two fresh ones every day. The pain quickly lessened, the water flowed more freely after the first application, and in just six days I was completely restored and able to resume my occupation."

THE LEGISLATURE.

Only the Senate in Session Today.

Some Important Bills Passed.

Special to the Gazette.

MADISON, March 19.—Session in the senate only. This morning bills were considered in authorizing railroad companies to appoint policemen for their premises.

Compelling short line telephone companies to pay the same license as telephone companies.

Authorizing school districts to borrow money to pay debts.

Compelling railroad companies to keep an ax and saw on the outside as well as inside of coaches.

Increasing the penalty for blackmailing.

A number of county agriculture appropriation bills were also considered.

JANESVILLE IN 1850.

A Few Reminiscences Concerning the Fall and Autumn.

A gem of a village nestled between protecting ramparts of hills covered with graceful foliage, a clear rapid river winding between sloping banks fringed with drooping willows—this was the picture viewed by newcomers years ago, as they journeyed in from the east and south on the old Milwaukee and Delavan stage roads. Is it any wonder that nearly all who came to view the land of promise, attracted by the scene of beauty, pitched their tents in the romantic valley of the Rock and formed the nucleus around which clustered our prosperous city. With the rapid influx of population there is usually an increase of criminal offenses, but there seems to have been in these early days, few disturbances in this peaceful community. For a little twelve by sixteen structure upon Main street a few rods south of South First street a mere apology for a jail, was considered amply sufficient for its purpose until 1850. The inmates were mostly criminals incarcerated for petty offenses and were too well pleased to be snugly sheltered and fed at the county's expense.

In July, 1850, the log jail, small dwelling house and lot were sold at auction, and the purchaser immediately took possession of the house. The county doleful had a sheriff in those halcyon days, capable of pursuing a vigorous policy of action, but the perquisites and emoluments of the office were few and far between, and with philosophic complacency he chose to relegate the practical duties of his office to hirelings. The deputy sheriff lived a short distance down Main street and the meals of the prisoners were brought up to them three times a day on a wheelbarrow, and at night the jail was securely "looked and the custodian of the county's peace restored home and indulged in peaceful slumbers in the bosom of his family. It was a matter of small concern to anybody whether the prisoners were locked out or in, and during the night they were left to their own devices, and then their fan began. The iron bars of their windows were easily loosened, and at their own sweet will they would climb out and in, and indulge in loafing and other pastimes in the lot south of the jail. On the approach of a stray wayfarer upon the street they would run back and spit themselves in through the small window promiscuously. They could have said of their eighteen by twenty-four window, like Mercurio "It is not as wide as a barn door. Nor as deep as a well. But it is enough, it is enough."

For it afforded them ingress and egress whenever they chose to take advantage of it. Matters went along in this happy fashion for several months until the stone jail was erected on Court street. After a few years the more commodious structure at present in use was built. With questionable judgment it was located on the bank of the river, and the plan of building is not above criticism, but a short time ago it was thoroughly repaired and renovated and now seems to be in good sanitary condition
